

## SENATE MEMBERS ASSAIL WILSON

PRESIDENT FAILED TO TAKE  
THEM INTO HIS CONSIDERATION.

### FIVE HOURS DEBATE

Restore Embargo Clause in Bill at  
His Request Notwithstanding.

Washington, May 7. Unqualified authority for proclamation of export embargoes by the President was restored to the Administration Espionage Bill by the Senate today after a five-hour debate. Senator Martin explained behind closed doors that President Wilson feared he would be unable to accomplish the ends desired under the act as it had been modified.

The provision as it now stands would empower the President during the war, when "the public safety shall require," to prohibit it unlawful to export articles to "any country named." Last week the Senate voted to authorize embargoes only against countries through which goods were found to be reaching the enemy.

Today's action was preceded by a five-hour debate in executive session, during which for the first time since the United States went to war with Germany there was vigorous and four-continued criticism of President Wilson. Republicans led the attacks, which were not directed at the President's conduct of the war, but at his failure to consult with members of Congress about the legislation passed to enable him successfully to carry it out.

Germany Getting Food.

Senator Martin stated when the doors were closed the President would be embarrassed by the amendment put in last week and that the Senate should now reverse itself. He said the Government had reason to believe that American exports were reaching Germany through Holland and Switzerland. Senator Walsh said that one instance showing the need of a stronger provision was found in the fact that Spain now is limiting exports of certain articles needed by England which she formerly allowed to go in larger quantities. With a strict embargo law in the United States, he suggested, the Administration might help actually by restricting exports to Spain.

Senators Lodge, Knox and Fall called attention to the fact that the Senate had no advance information on reasons for enactment of a strict embargo section. They declared nobody had any idea that the war was a partisan affair, but that the President had not consulted any Republican Senator nor had he told any Administration leader until the Senate modified the provision, his reason for desiring it passed in stronger terms. It would help, the Republican Senators said, if the President would take one or more Democratic leaders into his confidence on important legislation that they might transmit it to their colleagues.

Senator Williams, a Democratic member of the Foreign Relations Committee, replied that the President had tried taking Senators into his confidence early in his Administration on the Mexican situation and later on the shipping act, but had found the whole subject of his conferences thoroughly revealed in the newspapers shortly afterward.

Not Invited To White House.

Attention also was called during the discussion to the fact that no member of the House or Senate was invited to the White House functions in honor of the British and French missions. Other Senators in a critical mood spoke of the fact that the President had not called into conference on army questions Senator Chamberlain, chairman of the Senate Military Committee, and had not thanked Representative Kahn, the Republican member of the House Committee who helped the Administration put through the War Army Bill.

In the open Senate after the new embargo section had been adopted without a dissenting vote, Senator Townsend, Republican, declared he

understood the purposes of the legislation was to coerce neutral nations into the war on the side of the United States. If this were true he said, this nation has abandoned "the high ideals we have set as a reason for entering this war."

Senator La Follette proposed to modify the section to forbid an embargo where exports are intended for consumption by a neutral country and any coercion of such neutrals. It was not discussed before the Senate adjourned until to-morrow.

### COMMANDANT'S AID AT PEARL HARBOR SEIZED

Honolulu, May 8.—George Roentgen, former chief clerk to Capt. George H. Clark, commandant of the Pearl Harbor naval station, was arrested here today on an espionage charge. He is charged with having in his possession maps, photographs and descriptions of the Pearl Harbor base, and is held under \$25,000 bail.

### METHODIST CONFERENCE TO BE AT HOPKINSVILLE

Hopkinsville, Ky., May 9.—The Methodist Conference of the Louisville district will be held in Hopkinsville the week of September 26 instead of at Princeton, as first announced. This was agreed upon today by the official boards of the Princeton and Hopkinsville churches and will doubtless be ratified by Bishop W. B. Murray, of Memphis. The change was made in order that Princeton may entertain the conference during the celebration of the one hundredth anniversary of the Methodist Episcopal church of that place in 1918.

## CHANCELLOR BLAMED FOR MARNE DEFEAT

PAN-GERMANS SAY HIS HESITATION  
CAUSED VON KLUCK  
TO LOSE BATTLE.

Copenhagen, May 8 (via London).

The Conservatives and Pan-Germans have now brought up their heavy artillery in the battle against Chancellor von Bethmann-Hollweg and boldly lay the blame for the long duration of the war at his door. The Conservative Deutsches Tages-Zeitung explains that three or four days' delay in German mobilization at the outset of the war, due to the Chancellor's hesitant policy, caused the loss of the battle of the Marne.

The paper holds that the troops that were detached to stem the Russian invasion of East Prussia would have been sufficient to change the defeat of Gen. von Kluck's army into a victory and that in that case the war would have ended in a speedy and decisive German triumph. The Tages-Zeitung goes on to declare that the Chancellor threw away a second chance of terminating the war by opposing ruthless submarine warfare. It cites Field Marshal Conrad von Hotzendorf, Austrian Commander-in-Chief, as saying recently: "The war would have been over long ago if the submarine campaign had begun a year earlier."

The Pan-Germans and annexationists are also comparing the Chancellor to Hitler and demanding his retirement because he does not measure up to Germany's "iron man." The agitation for the downfall of Von Bethmann-Hollweg is unconcealed in press and Parliament and is reinforced by mass meetings organized by imperialist leagues and the Independent Committee for a German peace. The bitterness increases as the chances grow for a reform of political conditions in Germany. The Chancellor's opponents couple their attacks with far from flattering remarks about the Austro-Hungarian Government for its declarations in favor of moderate peace terms.

Trustee Election.

At the election held here last Saturday for four members of the Board of Education, for the Hartford, High School the following were chosen: C. O. Hunter and T. H. Black, for full term of three years; W. H. Gillespie for two year term and W. H. Barnes for term of one year. The members elect are to be qualified to-morrow and on Monday the Board will meet for reorganization. Mr. J. H. B. Carson is the only member of the Board to hold over, in- to resignations etc.

## \$1,000,000,000 WILL BE SOUGHT

CONGRESS IS EXPECTED TO AP-  
PROPRIATE HUGE  
AMOUNT.

### BACKED BY OFFICIALS

Every Steel Mill in Country To Be On  
Work At Once If Plan Is  
Adopted.

Washington, May 8.—Congress will be asked to appropriate \$1,000,000,000 for the building of the great American merchant fleet which is to overcome the submarine menace.

The program, evolved by the Shipping Board, contemplates the diversion to government uses of the products of every steel mill in the country, cancellation of existing contracts between those mills and private consumers, and, where necessary, payment of damages by the government to the parties whose contracts are canceled.

Estimates of the shipping board are that 5,000,000 to 6,000,000 tons of steel and wooden vessels will be constructed by the government during the next two years.

The only manufacturers of steel to be exempted from the program will be those needed otherwise for the national defense. Bills for introduction in Congress have been prepared and the administration hopes to get them under way so promptly that the first of the ship-building operations may be in motion within two weeks.

Just how the \$1,000,000,000 will be provided is to be left to Congress, but the tentative program calls for an additional issue of bonds.

Co-operation of the labor organizations has already been pledged, it is understood, and there will be no legislation, unless the present program is changed, looking to the drafting of the labor necessary to carry out the plans.

The only other exception to the general cancellations of private contracts with steel mills will be those of railroads. Steel mills, it is contemplated, will be permitted to supply them with the minimum amount of steel products with which the railroads can get along.

The program contemplates the use to the minimum of every resource within the United States speedily to design and build the largest number of ships possible. Should the number of vessels thus turned out be inadequate to meet the German submarine menace ship-building facilities will be increased.

## FIRST CAMP FOR INTERNEED FOES

PLACE OF DETENTION FOR AL-  
LIED ENEMIES IN NORTH  
CAROLINA.

### WORK TO BE GIVEN

500 Acre Tract Of Land Acquired  
And Work To Be Furnished  
At Fair Wage.

Washington, May 8.—Arrangements for placing all interned alien enemies in permanent detention camps where they will be well housed and given work at fair wages have been completed by Secretary Wilson, of the Labor Department. An official announcement today says the first camp will be established on a 500 acre tract of agricultural land in the mountains of North Carolina, and that 1,500 officers and sailors taken from German merchant vessels in American harbors will be the first allies to go there.

The statement adds that Secretary Wilson expects the necessity will soon arise for the establishment of additional camps. In addition to enemy aliens, the department plans to care for other aliens who cannot be admitted to this country under the immigration laws and whose deportation is impossible on account of the war as well as for feeble-minded immigrants. Those placed in camps will be segregated in three classes—enemies, other aliens and feeble-minded.

Will Go This Week.

The first detachment of German sailors will go to the North Carolina camp this week. There is a summer hotel on the camp tract, which was originally destined for club purposes. In addition to a large central building there are forty cottages with accommodations for from seven to fifteen men each. All buildings are well fitted and up to date in construction and sanitary arrangements. A large lake affords opportunity for swimming and boating.

Some 200 acres are under cultivation and the interned men will be employed on this work at first while plans are being made for the development of industries into which their labor can be turned profitably.

Secretary Wilson pointed out that with the approach of warm weather it was necessary that opportunities be provided for interned persons to work and obtain recreation in pleasant surroundings. "The Government desires," he said, "to treat interned persons with the greatest of cour-

tesy and make the conditions under which they must live as pleasant as possible."

Right Under Hague Treaty.

"Under The Hague treaty," a statement by Secretary Wilson says, "this Government is empowered to work the interned men or to farm them out to individuals or corporations. When worked by the Government they will receive the pay of soldiers, and when farmed out will be remunerated at prevailing wage rates. After making deductions for their maintenance at the time of their discharge by the Government whatever sums they have earned."

"The men in the camp in North Carolina will be used to cultivate the tract and will be farmed out for lumbering and roadbuilding. In view of the necessity for guards these two latter occupations appear to be the only ones in which they can be conveniently worked by private capital. "All arrangements have been made already with the Department of Agriculture for the employment of a number of men at roadbuilding on the Vanderbilt tract that adjoins the camp and which has been taken over by that department as a forest preserve."

Frank Foreman Strangled.

Frank Foreman, son of Mr. and Mrs. L. P. Foreman, of this place, who is bookkeeper for the Federal Coal Co., at Arjay, Ky., received a knife wound in the back on the 6th. It is charged by the hand of a miner, Dave Wright. Latest reports are to the effect that Frank is getting on nicely and that no danger is felt for his recovery.

## ALLIED WAR HEADS MEETS AT PARIS

UNITED STATES REPRESENTED  
FOR FIRST TIME IN WAR  
COUNCIL.

Paris, May 9.—The United States was represented for the first time in the Entente Allied war conferences by Rear Admiral William S. Sims, who was present at the recent Council of War here. In connection with the measures discussed by the British and French missions at Washington, the discussions at Paris are likely to be followed by numerous developments in the part the United States will actually take in the war.

Rear Admiral Sims, it is stated, will direct the operations, so far as that is possible from this side, in order to avoid the delay and uncertainty incident to directing operations from across the Atlantic.

Five nations, on whom the brunt of the campaign against the Central Powers, now is falling, were represented at the War Council, namely, Great Britain, France, Italy, Russia, and the United States. While Great Britain and France were represented by military and naval officers of the highest rank, including Maj. Gen. Sir William Robertson, Field Marshal Haig, First Sea Lord Admiral Sir John R. Jellicoe, Gen. Nivelle and Petain and Vice Admiral De Ron, the participation of the United States was confined to the naval side only. Rear Admiral Sims and Lieutenant Commander William R. Scales, the Naval Attaché, attending. There was no American military or diplomatic representative present. This is taken to indicate the advanced stage of the plans for action by the American Navy.

Supplies Taken On.

At Buenos Aires that ship, the Muskegon and the Olaguash all took on general food cargoes, oil and other fuel supplies, which were covered over with several hundred tons of coal, they said. On the Manitowoc there were also placed two iron chests filled with gold, each supposed to contain \$250,000. These, according to the men, also were hidden under the coal.

While waiting in St. Thomas for orders the Danish islands were transferred to the United States, and the ships were permitted to sail. The crew of the Manitowoc tried to get some of their pay while idle in the harbor, but Capt. Hogstead refused to make any payment. The men then made complaint to Rear Admiral Oliver, governor of the island, who required Capt. Hogstead to guarantee that he would not supply any more enemy ships before being permitted to leave the harbor, presumably for Buenos Aires.

Capt. Hogstead was unable to get any instructions from the owners in New York.

### ORDERS JUDGMENT FOR COMMONWEALTH ENTERED

Frankfort, Ky., May 9.—Judge Stout in the Franklin Circuit Court ordered judgment for the Commonwealth entered in the suits against former State Superintendent Barksdale Hamlett and his predecessor, Ellsworth Regenstein, for money alleged to have been spent by the departments under them without authority of law. These expenditures include printing of bulletins, employment of stenographers and various items not specifically authorized by the statutes. In the Hamlett case they amount to \$60,000 and in the Regenstein case to \$4,000. On Prof. Hamlett's bond for \$25,000 were John H. Vassar, of Ashland; the late John C. C. Mayo and D. W. Gardner. The National Surety Company is on Prof. Regenstein's bond. They will appeal.

## U-BOATS ARE BEING SUPPLIED

GOVERNMENT INVESTIGATING  
ACTIVITIES OF VESSELS IN  
ATLANTIC.

### CREW CONFESSES ACTION

Steamers Flying American Flag Held  
At Virgin Island Under  
Orders.

Washington, May 8.—The government is investigating the activities of the steamer Manitowoc and other vessels of the American Transatlantic Company, which are said to have carried supplies to German submarines in the Atlantic. This was disclosed at the Navy Department today, but no details of the steps taken were given out.

The American Transatlantic Company has offices in New York and Boston and its ships fly the American flag. Officials here will not say what had aroused their suspicions, but admitted the ships had been held for investigation at St. Thomas, Virgin Islands, by order of the Navy Department.

Both the State and Justice Departments have been taking part in the investigation.

Charges of The Crew.

San Juan, Porto Rico, May 5.—(Correspondence of the Associated Press.)—There are German submarines in the Atlantic and until very recently they have been supplied from the United States by ships flying the American flag, according to statements by members of the crew of the steamer Manitowoc, which for several weeks was detained in the harbor at St. Thomas. Twenty-one of the crew are returning to the United States after difficulties with Capt. F. Hogstead, master of the ship.

The Manitowoc, Muskegon and Olaguash, all belonging to the same line, shortly before the Danish Islands became the Virgin Islands, U. S. A., put into the harbor at St. Thomas, bound from Buenos Aires to New York, supposedly to "await orders." They were still waiting for orders when the islands were transferred to the United States. According to their manifests all three ships carried coal and other fuel supplies. Members of the crew of the Manitowoc say all the vessels were loaded with contraband for German submarines.

"When we left New York last we were supposed to have a cargo of coal exclusively," said one of the crew. "Underneath the coal were all sorts of fuel and food supplies." Supposedly the cargo was destined for Buenos Aires. Between St. Thomas and Buenos Aires we got rid of our cargo on the high seas to German submarines. We had no cargo when we reached Buenos Aires."

Supplies Taken On.

At Buenos Aires that ship, the Muskegon and the Olaguash all took on general food cargoes, oil and other fuel supplies, which were covered over with several hundred tons of coal, they said. On the Manitowoc there were also placed two iron chests filled with gold, each supposed to contain \$250,000. These, according to the men, also were hidden under the coal.

While waiting in St. Thomas for orders the Danish islands were transferred to the United States, and the ships were permitted to sail. The crew of the Manitowoc tried to get some of their pay while idle in the harbor, but Capt. Hogstead refused to make any payment. The men then made complaint to Rear Admiral Oliver, governor of the island, who required Capt. Hogstead to guarantee that he would not supply any more enemy ships before being permitted to leave the harbor, presumably for Buenos Aires.

Capt. Hogstead was unable to get any instructions from the owners in New York.

### WEST POINT TO GRADUATE ANOTHER CLASS AUG.

Newburgh, N. Y., May 9.—V. Henry, Commandant of West Point today announced receipt of an order from the War Department directing the first class of cadets to graduate August 1. There are 151 such in the class.

—clipping to Brooklyn Eagle.

## PLAN TO CRUSH U-BOATS DIVISED

EDISON SAID TO BE LABORING  
18 HOURS EACH DAY TO  
PERFECT SCHEME.

## WAR TO BE OFFENSIVE

Naval Advisory Board Says Kiel  
Canal To Be Attacked By  
New Invention.

New York, May 5.—A plan to stop the ravages of German submarines on maritime commerce has been submitted by the Naval Advisory Board. This was announced today by W. L. Saunders, chairman of the board. He said the plan was a solution of the U-boat problem. He said that it had been proven by actual tests along the Atlantic Coast.

The scheme is not merely a defensive measure against the submarine, Mr. Saunders said, but the inventive wizard, he said, had been working tirelessly to perfect its many phases. Since the declaration of war against Germany, Mr. Edison and his assistants have been trying thousands of schemes suggested to block Germany's undersea warfare, now admittedly the greatest menace to the European Allies and their new American partner, the United States.

Behind the program submitted to the Navy Department is all of Edison's practicability and all of Edison's deft skill in accomplishing the seemingly impossible. Announcement of the scheme by the chairman of the board dispelled doubts that it might be merely another academic idea devoid of practical use. And that the board made experiments before making their final public, left little doubt in the minds of naval officials that at least the war's greatest problem had been unraveled.

American Brains Win.  
If the plan works, as few doubt, American brains will have done what European brains have failed to do in four years of warfare. No announcement was made of the details of the scheme. Mr. Saunders explained that announcement of it had been made at this time to allay the fears of Americans, aroused by recent expressions by American and British officials that the U-boat was beginning to crush traffic between the United States and Europe.

Mr. Saunders took pains today to dispel any suggestion that he was theoretical in his findings. "I am not a believer in theory," he said. "I believe in practical work. The Germans have been doing all the offensive work so far while the Allies have been on the defensive. "The new plan contemplates offensive operations on an extensive scale. The result will be to narrow the end of operations of the submarine."

Mr. Edison is not directly responsible for the new device, but he is responsible for certain important phases of the plan. Mr. Edison has been giving all of his time to laboratory work for some weeks. "The Naval Consulting Board has been considering inventions at the rate of thirty-five a day for the past three or four months. Each of these suggestions, or inventions, has been considered and tried out by a special committee of the board. Out of the vast number, a few suggestions have been obtained, which are to be used in the proposed plan."

He said the new device would be effective on land as well as on the seas. "One part of the scheme involves destruction of submarines; the other involves destruction on land," he explained. "It may be permissible to say the new plan will utilize the present methods of combating submarines, namely the use of destroyers, submarine chasers, aeroplanes, observation towers and other devices." Mr. Saunders would not venture to say how soon the scheme would be tried in actual warfare. He said it could be applied "within a reasonable time."

"The board does not wish to give the impression that all other war preparations should be abandoned. It is just as necessary now as it ever was and recruiting should be continued. Go After Them.  
"When you want to exterminate rats and hornets you go after them. That's what we propose to do now. The field of operations will be narrowed gradually. "My statement giving my personal opinion as to the ultimate success of the effort to solve the submarine problem was not authorized by the board nor the Navy Department."

The board has been active since the winter of 1915. Mr. Edison is reported to have been working eighteen hours a day in his intensified fashion on everything that offered any promise of solving the question.

the winter of 1915. Mr. Edison is reported to have been working eighteen hours a day in his intensified fashion on everything that offered any promise of solving the question.

**Stop Left Over Coughs.**  
Dr. Bell's Pine-Tar-Honey will stop that hacking cough that lingers from January. The soothing pine balsams loosen the phlegm, heal the irritated membrane, the glycerine relieves the tender tissues, you breathe easier and coughing ceases. Don't neglect a lingering cough. It is dangerous. Dr. Bell's Pine-Tar-Honey is antiseptic and pleasant to take, benefits young and old, get it at your druggist to-day. Formula on bottle, 25c.

## EIGHT-INCH SNOW IN TEXAS BREAKS TREES IN BLOOM

Dallas, Tex., May 6.—Itain, which turned to snow at several points in the Texas Panhandle, fell Saturday night and to-day over the greater portion of North and West Texas, and according to agriculturists, was of great benefit to the growing wheat crop.

Amarillo reported 8 1/2 inches of snow, which bore many trees in full leaf to the ground by its weight. Further south, from Sherman to Houston, a general rain was reported.

## THREE SETS OF TWINS.

Judge's Heart Touched by Father's Tale of Woe.

New York, May 5.—If you were the father of three sets of twins, and kept them going, and your wife wouldn't live with you and the twins—would you send your wife money, courts or no courts?

Most probably not. So decided Judge Colan. And the Court of Domestic Relations, despite affronted dignity and contempt of its order, agreed with his view.

It was all hashed out in court when Mrs. Colan complained Colan hadn't been paying her the \$3 a week he had been ordered to remit in a previous proceeding. In the five years during which Mr. and Mrs. Colan have been married they have been blessed by three sets of twins.

Perhaps the twins were to blame. Anyway, Mr. and Mrs. Colan had many spats and finally decided to be on for good.

Some months ago the courts decided that Mr. Colan was to send \$3 a week to his wife and some weeks ago Mr. Colan decided that he would not. So all hands to the center of the court.

"Why," asked the court, "do you fail to pay \$3 as directed?"

"Because," said Mr. Colan, "when I think of her troubles I have to laugh. She wanted me and she got me; she wanted a home and she got it; she wanted fights and she won them all; she wanted to leave me and she did; she wanted her liberty and she got it; she wanted \$3 a week and got it; and she didn't want the three sets of twins and I've got them. Take it from me, your honor, a man with three sets of twins and no home regards \$3 as a bankroll."

And the court thought likewise.

## Children Cry FOR FLETCHER'S CASTORIA

CHICAGO'S WEALTHY TO  
SEND TROOPS WITH T. R.

Chicago, Ill., May 7.—Chicago's capitalists of industry will raise a regiment of volunteers for immediate service in France. Details of the undertaking were made public Thursday with the announcement of the following telegram to Col. Theodore Roosevelt:

"Chicago desires to raise the first volunteer regiment for the expeditionary force in France. We would like to make arrangements to start recruiting at once. We are convinced the presence of United States troops on the battle front would tend materially to shorten the period of the war and impress upon Europe the tremendous strength of our nation. Kindly let us know what arrangements have been made. The names of J. Ogden Armour, William Wrigley, Jr., E. Hulbert, Dr. Frank Billings, Samuel Hastings, C. B. Popenhausen, Fred S. James and Frederick D. Countiss were signed."

## ENLISTMENT OF STUDENTS CLOSES ARKANSAS COLLEGE

Little Rock, Ark., May 7.—Little Rock College will close Monday. It was announced here by Rev. Herbert Hoagney, president, because only fifteen students remain in the college department, forty-two students and three members of the faculty having enlisted in the army or navy. The college is maintained by the Little Rock Diocese of the Roman Catholic Church.

She Had 'Em.  
Student—What are your terms for students?  
Landlady—Dead beats and bums.  
—Exchange.

## U. S. AND BRITAIN TO RULE WORLD

PRESS OF AUSTRIA SAYS U-BOAT  
MUST WIN AT ONCE OR  
LOSE.

Vienna, May 5.—The Neue Freie Presse discusses the peace prospects from all angles and comes to the conclusion that the war could be ended at once if England, supported by the United States could be brought to her knees.

"As long as Great Britain is able to continue the struggle peace will not come," the paper says. "Russia may drop out and Italy also, but the fight will go on, because France will not dare to conclude a separate peace and England is more firmly resolved to crush Germany than ever. Counting on the inexhaustible resources of America, the British statesmen and army leaders believe themselves absolutely sure of victory."

"England would actually feel relieved if Russia, Rumania, Serbia, Italy would quit, because these exhausted countries have become a heavy burden for her—and can give little or no military aid for a long time to come, while America is able not only to furnish unlimited money, food, ships and ammunition supplies, but also enormous armies after a certain time. The aid of the United States is worth more to Great Britain than that of all her present allies, with the exception of France."

Entrance in War Certain.  
"The actual entrance of the great American republic into the war is a certainty the members of the restricted submarine war was proclaimed."

"The Central Powers knew this, but military necessity was the deciding factor. Whether the step taken was wise or not the future must show. If England can be brought to the verge of starvation before the United States is able to take part in the war on a large scale the Central Powers will dictate the peace terms. Many months will certainly pass before America can do more for England than she has been doing during the last thirty months, and in the meantime the submarine war must be continued with undiminished energy."

"Great Britain will be ready for peace if her shipping during the next three or four months can be reduced so that it will not even be sufficient for her own needs."

"As far as southern and eastern Europe is concerned the end of the war is insight. The Russian revolution is working for peace, altho it was brought by England for just the opposite purpose. When the badly crippled Russian cossacks quit, Serbia and Rumania will also try to get the best conditions possible, and there is reasonable hope that Italy may do likewise, but we have to reckon with the possibility that the submarine war will not prove as successful as expected, and that England can not be starved out."

## Anglo-Saxon Rule.

"In this case the world war will develop into a fight to a finish between England and America on one side and the Central Powers on the other. How this struggle would end it is impossible to say, but one thing is certain, if England and America should win out it would mean Anglo-Saxon rule over the whole world. Every country on the globe would practically become a vassal of the Anglo-American alliance, despite all the high-sounding talk of the rights of the small nations. This Anglo-Saxon hegemony would probably last for a very long time, and certainly until Japan with the aid of Russia and China, felt herself strong enough to contest it successfully."

## Bad Cough? Feverish? Grippy?

You need Dr. King's New Discovery to stop that cold, the soothing balsam ingredients heal the irritated membrane, soothe the sore throat, the antiseptic qualities kill the germ and your cold is quickly relieved. Dr. King's New Discovery has for 48 years been the standard remedy for coughs and colds in thousands of homes. Get a bottle to-day and have it handy in your medicine chest for coughs, colds, croup, grippe and all bronchial affections. At your druggist, 50c.

## Forest Notes.

Halsea wood, found in Central America, is said to be the lightest known wood. It is lighter than cork and has an average specific gravity of only .104.

A wood specimen found in glacial drift and estimated by the Wisconsin State geologist to be approximately half a million years old has been identified by the Forest Products Laboratory of the Forest Service as spruce.

State Forests with a total of over 3,600,000 acres have been established in thirteen States. Of these New York has the largest forests, which comprise 1,826,000 acres; Pennsyl-

vania is second with 1,008,000 acres, and Wisconsin third with 490,000 acres.

The largest number of sheep grazed on any single National Forest is 315,740, finding pasturage on the Humboldt in Nevada, while the largest number of cattle—75,818 head—is found on the Tonto in Arizona. The value of the average annual meat product of these two National Forests is estimated at \$2,000,000.

## KENTUCKIAN HAS DEVICE FOR DIVERTING TORPEDOES

Washington, May 5.—Henry Higgins, president of the Higgins Manufacturing Company, of Newport, Ky., was here to-day and offered the Government the patent of a device to divert torpedoes from ships. The contrivance also can be used as a sweeper for floating mines. Higgins brought a complete model with him and Navy Department officials to whom he was introduced by Representative House manifested a great deal of interest.

Proof Positive.  
Stella—So you and Tom are really engaged, are you? But are you positive you truly love him?

Mabel—Love him? Why, I never even took one of his presents back to find out what it cost!

## JAPAN MAY SEND MISSION

Government Considering Visit To United States.

Washington, May 5.—Japan may send a war commission to the United States. No definite information has been received, but it was said at the State Department today that intimations from an unofficial source had been made that the Japanese government was considering the move.

When the commission to Russia, headed by Elihu Root will leave has not been determined, but the State Department expects it to be under way as soon as plans can be completed.

Information as to when the Italian Commission will start for the United States is yet lacking.

## PREDICTS GERMAN-JAPANESE ALLIANCE

Yokohama, May 5.—An eventual alliance between Germany and Japan that would secure for all time the rights of the two countries in the Far East was forecast by Admiral von Hintze, formerly German Minister to China, in an interview with a reporter of the Kokumai Shimbun. The German Admiral added his belief that later Russia would come into the agreement and this form a powerful triple alliance that would exercise a predominating sway over the two hemispheres and insure a world peace. Admiral von Hintze was in Japan on his way back to Germany, by way of the United States. He predicted that the war would be settled by compromise.

## SHARK HUNTING TO GET NEW IMPETUS

New York, May 5.—Shark hunting promises to be a general and profitable industry along the coast of the Eastern States, since shoe manufacturers have discovered, by exhaustive experiments, that leather tanned from the hides of "man-eaters" is highly applicable for the purposes of ordinary footwear.

New York fishermen are preparing to carry on the hunt on a gigantic scale if the "sea tigers" come North this spring. While the industry in its infancy does not promise to be over highly remunerative, boat owners are confident with specialized methods catches of sufficient size to warrant exclusive attention to it will be their reward. In addition to the leather properties of the shark it produces an oil that is said to be the slowest drying lubricant known. It is also used in the manufacture of certain brands of waterproof paint.

## GEN. WILLIAMS OFFERED REGIMENT BY T. R.

Lexington, Ky., May 7.—Irrig. Gen. Roger D. Williams, confirming a story from New York, said to-day Col. Roosevelt had offered him command of a regiment in the Colonel's proposed regiment for duty in France, but that he had given no definite reply because of unsettled conditions and his own first duty to the Kentucky Guard. Gen. Williams said he had had many applicants from all over the State for the Kentucky regiment proposed.

Suppose the President tries to conduct a war along the partisan lines he has started out on the Tariff question; how far will he get?—Ducktown (Tenn.) Republican.

By The Sad Sea Waves.  
"Won't you let me kiss you, darling?" said the ocean breeze.  
"Really, I haven't time, sir," said the wrist watch, putting her little hands before her face.

## Try for Fletcher's ASTORIA

What You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Charles H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of infants and children—Experience against Experiment.

**What is CASTORIA**  
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its base is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## GENUINE CASTORIA ALWAYS

Bears the Signature of

*Charles H. Fletcher*

FRIDAY.....MAY 11

Say you old tightwad, have you subscribed for your share of the first \$2,000,000,000 war loan?

We are now committing our second or third offense, haven't been arrested, whipped or cussed out yet.

In this long drawn out battle between the Ice man and the Coal man, the former has gone down, stiff and cold.

The submarine having been invented by the United States, it would be a fitting climax to have Uncle Samuel work out some sure method of destruction.

It "pears" to us a bit like a certain fellow in this neck of the woods or one who has lately been in these parts, has some sort of a grounch on, or perhaps he is "just a spilin" for something. Hardly know what to look for next, perhaps it will be the salary of the County Auditor, or perchance, salary and incidentals to the Superintendent of Schools. There are a lot of things it "mout" be and some that it "moughtent" be.

Perhaps ninety-nine out of each one-hundred Democrats who remark at all, with reference to the situation of the good old U. S. A., in the present war, or crisis if you please, say that it is the duty of every patriotic person to stand squarely behind the President. There can be no question as to standing for our Country, upholding it in its hour of trial and of need, but getting and staying squarely behind the President is another thing altogether. In each and every scrap the Administration has had in Congress, it has been Republicans who have saved the day for Wilson, they have yet to be found wanting, that is in any noticeable numbers. Clark and the other acknowledged Democratic leader have both proven false. In spite of all of this, the only recognition ever received "that I know of" at the hands of President Wilson, or rather his administration, was that given to Elihu Root when he was named as some sort of commissioner to visit Russia, and that only within the last few days. No Republican large or small has been invited to consult with our President to this great crisis. I regret to say it, but they in so far as the President's knowledge and opinion are concerned at least doesn't exist and this is wherein we don't stand squarely behind Woodrow Wilson. As afore-stated the country is another matter.

### TO CANDIDATES.

Concerning the coming Primary Election, in so far as the entrance of new candidates are concerned, we presume that the field is tolerably well made up, the there may be a few yet to announce. If we desired to do so, it is entirely too early to venture a prophesy as to the outcome in any of the contests, yet it is not too early to warn and caution those who covet positions on the Republican ticket as to their conduct and manner of campaigns. We do not know of any specific acts, are not looking for any, and sincerely trust that none will be guilty of inflicting into this friendly contest for nominations, other than honest and honorable methods, yet every individual may and will be excused for making the very best campaign, putting forth his best and most earnest effort possible, to win out over this first lap in the course.

Let none deal in methods of questionable character, it don't pay. To make a long story abrupt, you know that the Democratic Party in Ohio County, huttens on nothing so fast as Republican mud-slinging, which is the sure road to disruption in our camp.

The fellow who starts anything in this campaign, or even looks like he wanted to start anything, to which respectable persons, for decency's sake could object, should be sent to the Lunatic Asylum or tied up to a good strong dog-wound bush and spine friendly four-year-old, serial mule

backed up to him and there kick the living day lights out of the has been, or would be, offender.

## OFFICERS' RESERVE CORPS

TEST PASSED BY 60,000

Washington, May 8.—More than 200,000 men—five times as many as can be accommodated—have applied for admission to the sixteen officers' training camps which opened to-day to begin developing the men who will lead new American armies to be raised within the next four months. About 60,000 have been certified as qualified for admission, and from these 40,000 will be selected and placed under intensive instruction within the next ten days.

Men already holding commissions in the Officers' Reserve Corps began reporting at the camps to-day. The remainder of the 2,500 assigned to each camp will report by next Monday when organization of infantry companies for the first month of hard drilling will begin.

### REDISTRICTING.

The Commissioners appointed by the County Court, consisting of C. F. Renter, W. N. Stevens and W. S. Brown, in a majority report filed last Monday, for the most part, changed the whole county, recommending, or reporting in favor of seven instead of eight districts as now existing.

Mr. Brown filed a minority report in which he leaves the county, or would leave the County divided as at present.

We have taken some pains to figure on the proposed districts, as to population, &c. We based our calculation upon the last census of the county, which was 27,642 and then took the vote for the year 1916, I think it was, and by that process it would show approximately 4 1/2 inhabitants for each vote cast, tho the rule is to count one voter for each 5 of population. Following is the proposed districts and the population of each, with voting precincts composing same:

District No. 1—East and West Hartford, East and West Beaver Dam. Population, 5,008.

District No. 2—Centertown, Smallhouse, Pt. Pleasant, Ceralvo and Renter. Population, 2,984.

District No. 3—McHenry, N. Rockport, S. Rockport, Prentiss, Cool Springs and Simmons. Population, 4,364.

District No. 4—Shreve, E. Fordsville, W. Fordsville, Herbert and Actonville. Population, 3,798.

District No. 5—Bartlett, Buford, Boda and Hedlin. Population, 3,345.

District No. 6—Sulphur Springs, Magan, Ralph, Narrows and Olaton. Population, 3,542.

District No. 7—Rosine, Horse Branch, Arnold, Selet and Crowwell. Population, 4,392.

(There has been some change made in the boundary line of W. Fordsville precinct, Ralph and perhaps Magan, but I was unable to show it in this article, this of course would somewhat change the total vote of both District No. 4 and 6.)

District No. 1, has a population of more than 5,000 and is safely Republican, while District No. 2 is Democratic by about 40 and has a population of less than 3,000.

From the method I have pursued, and it is practically correct, agreeable to the afore-said election there are two Democratic districts and five Republican districts, and by some strange system of computing the number necessary to representation on the Fiscal Board, it takes 4,342 souls in the Republican districts, and only 3,165 in the Democratic districts, or 1,055 less in the Democratic districts than districts voted otherwise. We hope that this was not intentional upon the part of the worthy Commissioners, in fact we are certain that it was not purposely done, because we know them personally and feel that this inequality was due to lack of sufficient data from which to make up their report and neither do we believe that the court will thus establish the Magisterial Districts, as representing equality between the taxpayers and citizens of Ohio county, of whom he is the representative, not of one, but all.

### AMERICAN OFFICERS TO DRESS LIKE THE BRITISH

Washington, May 8.—It will be difficult to distinguish from American and British officers in the future if plans now under consideration by Maj. Gen. Scott, chief of staff, are approved. The British roll collar jacket may be adopted to replace the closed collar new regulation for the American service. Then Scott will be the first officer to try out the proposed new uniform if it is understood and upon collar blouse is now being made for him and some officers of the Quartermaster General's office are greatly in favor of the change.

The present uniform was adopted on recommendation of the Army War College. It was held that the open collar blouse did not protect the throat and chest of a soldier in the field properly and that it would make an unbecomingly appearance.

## OHIO CIRCUIT COURT IN SHORT SESSION

COURT WILL LIKELY ADJOURN SAT. JURORS SELECTED FOR NEXT TERM.

The Ohio Circuit Court conveyed here on last Monday, with a very light docket. Many equity cases have been taken up, argued, and disposed of.

In the case of Commonwealth of Ky., vs. George Jewell, tried and acquitted. Comth., vs. Ike France, et al., two cases continued to July term. Comth., vs. Hadden Tanner et al., continued to July term. G. W. Embury, et al., vs. P. L. Alford, judgment for plaintiff for \$25.00. Turner vs. Heavrin, amended petitions filed, and demurred to, sustained and appeal prayed on questions of law, which was granted and action dismissed on motion of Plaintiff.

Edgar Weller was adjudged a feeble-minded person and was sent to the Kentucky Institute for the feeble-minded.

Jin Whl Brown and Jennie Bennett were both tried and adjudged to be persons of unsound minds or lunatics and committed to the Western Kentucky Asylum for the Insane.

The following were empaneled as Petit Jurors on Monday:

J. C. Magan, J. D. Johnson, T. R. Black, W. R. Gray, Ollie Duff, S. B. Smith, J. W. Davenport, L. C. Porter, John King, T. P. Carson, R. S. Baker, James A. Cooper, Robert Decker, Wm. Pulliam, Morris T. Gentry, J. N. Cole, Frank Landrum, E. P. Brown.

The following were empaneled on Wednesday:

I. H. Black, Tip Bean, J. C. Hill, John Miller, A. C. Jones, J. L. Smith, Fred Cooper, Felix Shaver, S. H. Wiggington, W. C. Richards, J. S. Taylor, J. T. Eskridge.

The disposal of the case of Turner vs. Heavrin, relieved the docket so much for the remainder of this term, that the Court deemed it wise to dispose of the Jury, and it was dismissed on Wednesday.

The Court at this term has drawn and announced the Grand and Petit Jurors for the coming July term, each to appear on the first day of said term, following is the list of those who are to serve as Grand Jurors:

R. C. McSherry, Carl M. Taylor, Walker, Myrtle, W. E. Ashby, Ben Hall, J. J. Breken, Leo Brown, Bob Shreve, E. P. Moore, Quint Brown, L. D. Bennett, J. L. Brown, J. R. Burgess, J. M. Barrett, Luther Dooly, Lewis H. Rentry, J. R. Adlington, W. L. Leach, Bertie Hammons, W. T. Whitrow, James Ralph, T. S. Boswell, E. P. Barnard, C. L. Masak.

The following compose the Petit Jurors for the July term:

J. H. Davis, W. P. Allen, J. S. Young, Alonzo Phillips, Estill Board, W. Embury, Basil Taylor, James W. Brown, W. B. Chula, U. S. Carson, Lufe Grant, John Babbett, R. H. Johnson, J. R. Hoover, R. P. Bonacott, V. A. Stewart, Ab Chapman, H. C. Crowder, S. W. Taylor, J. W. Price, Mack Daniel, J. S. Eskridge, Charlie Petty, John Johnson, N. J. Faught, Clyde Bolling, Lon Gentry and D. M. Park.

### FINANCING RELIEF WORK ASSUMED BY AMERICA

Washington, May 8.—The American Government today assumed the financing of relief work in the Russian Empire. The American Relief Administration, headed by Mr. Herbert Hoover, director of the American Commission, announced that it had secured a loan of \$12,500,000 from the United States Treasury to finance its operations in Russia. The loan was to be repaid by the Russian Government in the form of bonds.

The American Relief Administration is a non-profit organization that was created in 1919 to provide relief to the people of Russia who were suffering from the effects of the Russian Revolution and the subsequent famine. The organization has since provided relief to millions of people in Russia and other parts of the world.

Herbert C. Hoover, director of the American Commission, announced that the loan was to be repaid by the Russian Government in the form of bonds.

The loan was to be repaid by the Russian Government in the form of bonds.

The loan was to be repaid by the Russian Government in the form of bonds.

The loan was to be repaid by the Russian Government in the form of bonds.

The loan was to be repaid by the Russian Government in the form of bonds.

The loan was to be repaid by the Russian Government in the form of bonds.

after the date when the new government suddenly begins in a special reserve fund to be named as outlined. An improvement in shipping conditions may change the situation entirely. Americans recently have been contributing about a million dollars monthly for Russian relief. The French and British governments have spent many millions a month.

### L. T. REID IS FIRST TO OFFER SERVICES

Judge Jno. B. Wilson is in possession of a letter from Mr. Lyncurgus T. Reid, of Rockport, tendering his services without remuneration, as Registration Officer, for the registering of those required under the Selective Conscription Act, recently enacted by Congress. Mr. Reid states that he is 75 years old and therefore unable to serve his country in the field and desires to do this little bit, for the good of the cause.

Judge Wilson suggests that others who desire to follow in the footsteps of Mr. Reid should file their offer or request with him at once, and that all who tender their services shall be considered when he makes appointments.

### Poultry Notice

Hartford, Ky., May 7, 1917.—Everyone that has poultry for sale by the May delivery, or those who want to pool with the organization for the next and last sale for the season are urgently requested to report the amount to the sale committee in the next week or ten days as the committee cannot make a sale unless the stuff is reported.

H. L. TAYLOR,  
HENRY M. PIRTLE,  
Committee.

By HENRY M. PIRTLE.

## RUSSIAN WORKMEN TO BE IN GOVERNMENT

MINISTRY HAS DECIDED ON COALITION CABINET FOR NEW REPUBLIC.

Petrograd, May 9.—The Russian Government to-day issued a declaration in favor of a coalition ministry.

The declaration of the new Russian Government indicates a concession to the Council of Workmen's and Soldiers Delegates, the powerful body of fighting and working men forming the majority socialist party, members of which recently took part in a great demonstration against Prof. Paul N. Milukoff, the Foreign Minister, and other members of the Government. The demonstration itself was not of alarming proportions, and while it is true that the Council shortly thereafter voted by a small majority to sustain the Government, still the popular clamor has been so great for some representation in the Ministry from the working classes that the indicated step of the Government may be constructed as a victory for the Council. The Council, while including in its membership many who are in favor of an immediate peace, is decidedly not pro-German.

### ARMED FORCE UNDER U. S. FLAG APPEARS IN PARIS

Paris, May 9.—The Stars and Stripes appeared on the streets of Paris this morning when the flag and fifty men of the American field service under it on their way to the railroad station for the front were acclaimed enthusiastically by early risers along the route.

Thirty-one members of the contingent are from Cornell University, and a graduate of Cornell, Edward Tinkhat, of Montclair, N. J., is in command, with R. T. Scully, a Princeton man from Pittsburgh, as his assistant.

This is the first detachment of the American Field Service to bear arms and detailed for the transportation of munitions to the front.

### Eggs For Hatching.

S. C. Black Minorcas, Northron strain—the big kind, White Wyandottes, Duxton strain—the slay white kind. Eggs from either or both breeds for quick sale \$1.00 per 15, \$3.00 per 50. 25 per cent off after May 10th. The best matings cocks and hens not related. Good weathers and winterlayers.

L. T. BARNARD,  
Hartford, Ky., R. 4.

### U. S. STEAMER FIRES SIX SHOTS AT U-BOAT

New York, May 9.—An armed American liner steamship which arrived here tonight from a European port reported that her gun crew fired six shots at a German submarine off the coast of Ireland on May 2. The submarine boat immediately submerged and it was impossible to determine whether any of the shots had been fired.

The periscope of the submarine was

A chicken shower will be given by the Ladies of the Mt. Hermon, M. E. Church, on Saturday the 13th., and Monday the 15th. Fowls will be received at the Church or Produce House of W. E. Ellis & Bro., Hartford.

Will pay 35 cents a pound for springers 1 to 1 1/2 lbs., 40 cents a pound for springers 1 1/2 to 2 lbs. Hatched out since the first of the year. Must be free from feed. Prices good until May 11th, 1917.

W. E. ELLIS & BRO. Sergt. Gilmore Keown, of Co. H, Ky. N. G., has been selected as one of the fifteen from the third regiment to take special training for the Officers Reserve Corps. The many friends here, of Sergt. Keown are much pleased to learn of this deserved recognition.

Otis Howard, of this place, who has been a student in K. S. U., during the past two years is home for a short stay. Mr. Howard has made application for membership in the Army Officers Reserve Corps, has been accepted and is expecting to leave at an early date.

Leave your Laundry at Schapmires Printing Office. Special attention given out of town customers. Laundry called for in town on Mondays and delivered on Fridays. We are agents for the White Swan Laundry and guarantee the work. 441f SCHAPMIRE & ELLIS.

HOES—We have a lot of goose-neck hoes that will chop the weeds and grass out of your crops. And we are selling them cheaper than you can buy them elsewhere. Price others, and then come to us. S. L. KING & CO., Hartford, Ky.

Mr. Q. B. Brown, of Simons, announces his candidacy for the Republican nomination for J. P. O. C. from the Rockport Magisterial District, this week. Mr. Brown is a farmer and mechanic, a good business man and exceedingly well qualified for this important position. If nominated his election is assured.

Having purchased the up-to-date restaurant heretofore run by L. T. Riley, on Main street, I will be glad to have my friends call. You will find everything neat, plenty to eat and courteous treatment always. Remember the place—near Star Theater. J. A. TATE, Hartford, Ky.

Sidney A. Williams, W. Park Taylor and Matthew Benton were in Bowling Green Tuesday for the purpose of taking the examination for entrance to the Army Officers Reserve Corps. It is reported that each passed the examination and all will start for Fort Benjamin Harrison, Indianapolis, Ind., at an early date.

Farming Implements—We handle the Celebrated Vulcan Chilled and Blue Bird Plows, Corn Planters, Disc Harrows, Cultivators, Mowing Machines, Hay Rakes and various other farming tools. We also handle the Weber Wagon. Plow time

will soon be here, see our line before buying.

W. E. ELLIS & BRO., Hartford, Ky.

Mr. J. Ellis Mitchell, Dundee, Judge C. M. Crowe and W. W. Browder, Hartford, were designated by the County Court as witnesses to appear before the State Board of Equalization, Frankfort, on behalf of Ohio County to protest against the proposed increase of 25 per cent on farm lands and personalty and 15 per cent on town lots, as listed and reported by the Assessor for taxation for the present year. The hearing was had on Wednesday, of this week.

W. H. Burton. Mr. W. H. Burton died very suddenly at 8:30 o'clock p. m., on Wednesday at his home here. Mr. Burton had been in failing health for quite a long time, tho able to be up and attend to his affairs. Death was due to heart trouble. Deceased was widely known throughout the county, having served as railway telegraph operator, liveryman and until recently had been Marshal of the town of Hartford.

Besides his wife he leaves one daughter, Miss Lillie.

Funeral services were held at the family residence, conducted by Rev. R. D. Bennett, yesterday afternoon at 3 o'clock, after which the remains were laid to rest in Oakwood.

## PLAN TO PUT MUNITIONS WORKS OUT OF BUSINESS

New York, May 9.—Andrew D. Meloy testified to-day that Capt. Franz Rintelen, of the German navy, told him in July, 1915, that David Lamar and former Representatives Frank Buchanan and H. Robert Fowler had entered into a plan, financed by Rintelen to "compel or procure strikes" in munition plants and that it was represented to him that "within thirteen days there would be hardly a ton of munitions made in the United States."

Meloy, who is a financial expert, testified at the trial of the four men named with four others on charges of conspiring to wreck the Entente Allies' munition trade in this country Meloy said Rintelen also told him Lamar had organized Labor's National Peace Council to carry out the plans. The witness said he told Rintelen that if he was paying out any money for such a project he was being cheated.

## COUNTY BOARD OF EDUCATION MEETS

The County Board of Education was in session Tuesday and Wednesday, with all members present, as we are informed. Quite a lot of business of much importance was transacted, among which was the purchase of all needed furniture for the various Districts and the adoption or designation of the Melleny Graded School as one of the County High Schools.

## WAR PROHIBITION BILL INTRODUCED IN SENATE

Washington, May 9.—A bill prohibiting the manufacture, sale, transportation or exportation of beverage alcohol in war time was introduced in the Senate today by Senator Kenyon. It would permit legislation for the manufacture of explosives.

## \$160,000,000 PAID OVER TO FRANCE

Washington, May 8.—France today received the \$160,000,000 the United States has decided to lend her to meet her expenses in this country during May. The amount was transferred by Secretary McAdoo to Ambassador Jusserand to-day by Treasury warrant.

The loan brings the total advanced thus far to the Allies up to \$450,000,000. Indications are that subscriptions to the second offering of Treasury certificates, which were to close May 10 probably will be closed before then. The transfer of the \$160,000,000 to France to-day was marked by an exchange of addresses by Secretary McAdoo and Ambassador Jusserand.

## COOK FREED OF MURDER CHARGE

At the examining trial of Jesse Cook here yesterday, who was arrested on last Monday charged with the murder of his wife at an early hour on the same date, the Court decided after hearing the evidence that the killing of Mrs. Cook was purely accidental, and discharged the defendant. Those hearing the trial were of the opinion that the Court's judgment was in line with evidence introduced.

## Marines Above Strength.

Washington, May 9.—Official announcement was made today that the Marine Corps now consists of 15,251 men. Its authorized strength of 17,400 was passed May 1. A bill to authorize a strength of 30,000 is pending in Congress.

## FLAG RAISING CALLS FORTH PATRIOTISM

### CELEBRATION AT COURT HOUSE LARGELY ATTENDED LAST SATURDAY.

Very interesting and appropriate exercises were held Saturday evening May 5th, in the Court Hall to celebrate the raising of a large flag from the dome of the court house some days before.

Judge W. H. Barnes acted as chairman and in a very pleasing and forceful way welcomed all to the meeting.

Prayer was offered by Rev. B. W. Napier, after which the patriotic air, "Dixie" was rendered by Shults' colored orchestra.

"Our Flag" was next discussed by Supt. Ozma Shults after which he presented a fine flag to the Boy Scouts of Hartford, the gift of Hon. G. B. Likens.

The recitations of Miss Amelia Little was well rendered and greatly enjoyed.

"The little boy guiding the Plow" was next very beautifully read by Mrs. J. B. Wilson.

Hon. Otto Martin next on the program was unavoidably absent and "My Old Kentucky Home" was sung by the audience, being led by Prof. E. S. Howard.

"The Red Cross" was next very ably and entertainingly discussed in a well prepared paper by Mrs. I. S. Mason.

Judge John B. Wilson next on the program to discuss "Soldiers of the Soil" was unable, on account of a very sore throat to take part in the exercises.

"Mothers Part in the War" was next discussed in a paper by Mrs. J. S. Glenn, that was admitted to have been one of the most forceful, entertaining and instructive addresses ever heard by a Hartford audience.

County Attorney A. D. Kirk, next responded with a very eloquent patriotic and forceful lecture on the subject "Our Volunteers."

"Our Part as Citizens With Our Country at War" was next discussed by Judge J. S. Glenn in a very forceful and touching manner.

Mr. McDowell A. Forde in a short but highly entertaining address closed the speech making of the evening. Led by Prof. E. S. Howard the en-

tire audience joined in singing "America."

Quite a number of patriotic selections were rendered by Shults' orchestra between addresses of those on the program.

A very large audience which filled the Court Hall was present to take part in and enjoy the exercises, and all left seemingly with the sentiment on their lips of the Author who said:

"Breathes there a man with Soul so dead who never to himself has said, This is my own, my native land."

## LINE DISAPPEARS.

Russian Suspect, in German Pay Is Missing.

London May 9.—It is reported in an Exchange Telegraph dispatch from Copenhagen that Nikolai Lenin, the Russian Radical Socialist leader, has been missing for two days. The dispatch which quotes the Svenska Dagsbladet, of Stockholm, as its authority, says nothing is known as to Lenin's fate.

Lenine, an expatriate under the old Russian regime, was permitted by the German Government to return home through Germany from Switzerland after the revolution. He undertook a vigorous campaign at the head of a group of ultra-radicals in favor of peace and was so active that he caused some anxiety among those who supported the Government in its determination to continue the war. Lately, however, Lenin's influence is said to have been waning.

## Fiscal Court Meets.

The Ohio County Fiscal Court, with all members present met in regular session here on Wednesday and yesterday. Quite a bit of business was transacted, among other items of interest and importance, the Court re-elected County Agent, or Farm Demonstrator, W. W. Browder. This act of the Court will meet with general approval of all who know of Mr. Browder's ability, and of the many good things he is doing to advance the interest of the farming class in Ohio County.

Sharpen Everything But your Wits. Plow points ground on short notice by power driven tools. All kinds of woodworking and blacksmithing done to your satisfaction. Service unexcelled.

CHASPIE BROS., Hartford, Ky.

## Wagons! Wagons! Wagons!

Before you buy you should examine our hand made farm wagons. They run lighter, are made of the very best material and last far longer than any machine made wagon you can buy no matter what price you pay.

We also do all kinds of Blacksmithing and Repairing, especially the hard jobs the other fellow can't do.

We also make a specialty of Horseshoeing and earnestly solicit your patronage in this line.

Respectfully yours,

## TURKS DRIVING JEWS FROM HOME

### 8,000 HEBREWS DRIVEN OUT OF JAFFA, TWO HANGED TO TERRORIZE

New York, May 7.—The entire Jewish population of Jaffa, Palestine, about 8,000 men, women and children of many nationalities, were forced by the Turks on April 1 to evacuate their homes and flee from the city, according to a cablegram received here today by the provisional Executive Committee for general Zionist affairs.

The roads leading from Jaffa were thronged with starving people, some dying by the roadside, and mutilated bodies of rich Jews were found on the sand dunes, the message said.

Two Jews were hanged "as an indication of the fate in store for any Jews who might be so foolhardy" as to oppose looters. Bedouin Turks and women sacked the Jewish homes while the dwellers were departing and all valuables were stolen.

Mohammedans and Christians were allowed to remain if they had individual permits, the cablegram stated, but every Jew, even those Jews who were Austrian, Hungarian, Bulgarian and German, were ordered out. No free transportation was afforded, but every fleeing person who paid from 100 to 200 francs in gold was furnished carriage space for a ride of nine miles to another town.

Prior to the evacuation of Jaffa, the message said, 300 Jews were deported in "a cruel manner" from Jerusalem.

The Zionist committee here said the cablegram was reliable, and from one whose name they withheld for fear the Turks might visit the sender with retribution if they learned his identity.

Hjemei Pasha, the Turkish military Governor of Jaffa, issued orders on March 28 that the Jews evacuate "as a measure of military precaution," according to the message. Some wished to escape by sea, but this method was denied them, and they were driven penniless and hungry to the open roads and became prey to bandits.

## SCHANG GETS SHAVED THEN KNOCKS HOME RUN

New York, May 5.—This is the story of a mustache—a bit of shredded wheat, upon which the New York Yankees look with profound respect. It all happened at the Polo Grounds when Connie Mack led his made-over misfits against the men of Bill Donovan for the first time this season, but it is still fresh in the memory of the Yankees, particularly Allen Russell, boxman and sharpshooter.

The drapery in question was discovered adorning the mezzanine lip of one Wallie Schang, art artist. It was grown in the balmy atmosphere of Dixie, and, nurtured in the soft Southern sunshine, it flourished and looked out upon a strange world. Wallie Schang thought so well of it—probably because it gave him a military appearance—that he hauled it back North and brought it along to the Polo Grounds.

Russell the Victim.

As we stated before, the Maeks and the Yankees were playing ball, and along in the ninth inning, with Bill Donovan's boys throwing out their chests over a 2 to 1 lead, Wallie and his mustache got the cue to enter.

Mr. Allen Russell was pitching superb ball. He had been whizzing 'em by the Athletics with a "whoosh" and a "zip." But in that ninth inning, Stuffie Melnis got his bludgeon in the path of one of Russell's slants and it sailed into safety. Then came Bates, and, like Melnis, he bombasted the pit out of the danger zone. With the bases two-thirds populated, Wallie Schang and his third eyebrow advanced to the plate. Right then and there Mr. Schang came in for a panning. The Yankees added him unmercifully about his consummate slatter. Mr. Russell was not one of the best of these. He shot over a first one nose high and close in.

"Howdyah like 'at one for a close shave?" he howled. "Pretty all right, huh? Barbers walk out in Philly. There's another!" and he unraveled his long arm.

Wallie Proves Hero.

Then came a loud and resounding crash.

It might have been another mustache plant going up; it might have been one of Uncle Samuel's battling ships at target practice. But it was neither.

Wallie Schang's mustache quivered.

ed defiantly as he dashed toward first base. It twitched noticeably as he turned second and it bristled as he rounded third and followed two runners home. The ball was bounding around in the upper grandstand, having the time of its young life, when Wallie and his crop of sunshine pulled up at the plate, for Wallie had a home run; had turned defeat into victory.

Never again will ho Yankees be so reckless as to kid a guy with a soap strainer under his proboscis. Never again will they tempt the fates that keep watch over three or four misplaced and wild hairs. It was too much.

### Sprains And Strains Relieved.

Sloan's Liniment quickly takes the pain out of strains, sprains, bruises and all muscle soreness. A clean, clear liquid easily applied, it quickly penetrates without rubbing. Sloan's Liniment does not stain the skin or clog the pores like mussy plasters or ointments. For chronic rheumatic aches and pains, neuralgia, gout and lumbago have this well-known remedy handy. For the pains of grippe and following strenuous work, it gives quick relief. At all druggists, 25 cents.

### "U. S. RUN BY GOD"

Little George Hollis Wanted to Come Here and Buy Flag.

Sault Ste. Marie, Mich.—George Hollis, 5 years old, living in the Canadian Soo, has the making of a good American.

He boarded an international train recently at his home town to come into the United States on a secret mission. The conductor and immigration officials—who are very alert nowadays—noticed George and asked him to sit with his father.

George strutted through the smokelag car with the officials on his trail. He looked from one man to the other until he reached a man in the last seat.

"Here's my father," said George. "I never saw the boy before," said the man.

The boy insisted that the man was his father, until he was threatened with a spanking. Then he sobbed and said:

"I wanted to come to the United States and buy a flag. My daddy said the United States was run by God and I wanted to show God that I loved Him."

He carried six large American flags and wore a broad smile when he boarded the train for its short run back into Canada.

### Why They Go Back.

A warning that millions of workers in America will return to their native countries in Europe after the war was given by George W. Tupper, secretary of the immigration department of the Y. M. C. A. of Massachusetts and Rhode Island, at the recent dinner of the Wellesley Club.

The Boston Post reports Mr. Tupper, who has made a complete study of immigration conditions, as saying:

"From all sides comes word of the application for passage to Europe of millions of workers.

One company alone, in New York, has already booked hundreds of thousands of passages to Russia. The same is true everywhere. For this reason we need to study the lack of need of, stability amongst our workers."

Would there be any such retrogression if there was a properly Protective Tariff in the United States? If we had such a Tariff, foreign-born workers would want to stay here, for they would then have no dread of the European and Asiatic competition that will come with the return of peace.

### NOTICE.

We again call the attention of our readers to the fact that The Republican will publish no communications unless signed by the author. Few weeks pass that anonymous articles are not received and it is not our desire to hurl newsy items into the waste basket. This anonymous communication rule is stated each week at the head of the editorial column and must be adhered to. Requests that names be omitted from print are complied with, but the manuscript must bear the writers' signature.

## ROOSEVELT'S FORCE READY FOR FIELD

HAS ENROLLED 187,000 MEN. ALL  
HAVE INCOME OF \$2,000  
OR MORE.

New York, May 9.—Col. Theodore Roosevelt has enrolled a list of 187,000 volunteers at the headquarters of the Roosevelt division, 753 Fifth avenue, who are eager to follow him in the war against the Germans. Col. Roosevelt and his aids took up the task of enlisting American citizens who desired quick action on February 2. They have received 300,000 offers of voluntary service since then, but have weeded out almost half because Col. Roosevelt wanted only a special type of volunteer.

He has accepted only such men as are above the conscription age, and have settled incomes of from \$2,000 to \$5,000. Col. Roosevelt is able to offer two completely equipped divisions, including cavalry, infantry, field artillery, engineers, signal corps, motorcycle machine guns, motor transport commissary and subsistence, hospital corps and quartermaster's department.

At his headquarters it was said that Col. Roosevelt had so many offers of assistance from wealthy citizens who were themselves unable to leave that he could place this entire body of men at the disposal of Uncle Sam without the government's expenditure of a cent for equipment. The details of the mobilization have progressed so far that the Roosevelt divisions can be called to the field at once, and the mobilization camp has already been selected. For obvious reasons this cannot be made public.

The Roosevelt headquarters have made public the recruits by divisions from every state. From Kentucky, Col. Roosevelt has signed up one regiment of infantry, mountaineers from East Kentucky, Tennessee and Virginia, all of whom are sharpshooters, four companies of cavalry and one company of infantry. Indiana has given a regiment and three companies of infantry. Tennessee is said to have contributed three regiments and three companies of infantry, while Ohio is down for a troop of cavalry, three regiments and three companies of infantry.

### Business Scholarship.

We have for sale, a scholarship, good for a complete course in either bookkeeping and accounting or stenography course in the Owensboro Business & Industrial College. For particulars apply at Republican office.

### BLACK FLIES TO

#### MINISTERS' RELIEF

Mayville, Ky., May 9.—A sensation was created at the First Methodist Episcopal church, South, here when the pastor, the Rev. E. E. Jackson, 20 years old, announced to the congregation that owing to his failure to receive his salary he was in actual want, hardly being able to stand on his feet from lack of proper nourishment. This so astounded his hearers that they forthwith began relieving his wants and by the time the services were over the church looked like a commissary department of the regular army.

### LOOKS TO AMERICA FOR EVEN GREATER SUPPORT

London, May 9. Archibald S. Hurd, the well-known writer on naval subjects, in an article to which the Daily Telegraph gives prominence, earnestly reiterates his plans for enlarged ship building to meet the needs caused by the submarine war. He appeals strongly for American help, in addition to the efforts which he declares to be essential here. Mr. Hurd said that something like an immense sea wall seems to have developed ashore while the balance against the Allies' shipping is daily increasing.

"Greater efforts on our part must be undertaken without delay," he says. "It is folly to hope that the Admiralty will discover a complete antidote. The navy is doing all that can be done, but our salvation lies in ships, the building of which must be pressed with the utmost speed if we are to be rescued from a position which conceivably might prove our undoing."

The writer says he speaks with knowledge of the conditions in the ship outfit. He declares that the construction now is at the rate of a million tons a year, but that if the country is not to be driven into a corner the output must be doubled and three million tons completed within the next twelve months. The organization for this exists, he adds, but it is waiting for men and money.

"It would make all the difference if some of the American millions of skilled and semi-skilled workers could be shipped over here and others sent over to America upon

ship building to the limit of the existing plants," he continues. "It would also be invaluable," says Mr. Hurd, "if by economies in non-essential manufactures America could send an additional million tons of steel to this country in the next six months. . . . If the Allies' cause is to be assured beyond peradventure, we must look across the Atlantic for even greater support than has yet been promised. We have no doubt that the Americans will select the most swift and effective way of insuring that the enemy shall not reap the fruits of piracy."

### GO TO SUNDAY SCHOOL

About One-fifth of Population Attended S. S.

There have been returns received from 25 Sunday Schools throughout the County, of attendance on last Sunday, these are, as one would readily imagine from the larger ones where more interest was manifested. The returns from the 25 schools reporting shows an attendance of 2,521, or approximately 101 for each S. S.

There are about 70 schools within the County not reporting, a very conservative estimate would be and average of about 40, which would give a total of 2,800, added to the 2,521 makes a total for the entire County, of 5,321. This is not so bad, compared with the remainder of the County, yet less than one out of every five attended. The total population of the County being, as per last census, 27,642.

The Baptist S. S. of Beaver Dam, with an attendance of 310 was the largest, the next in point of attendance was at the Methodist Church, Hartford, with an attendance of 265. Beaver Dam combined also led with a total for all Churches, White and Colored, 795. Beaver Dam reported 260 Colored in S. S. and Hartford 113.

### For Sale.

Work horses, Harness horses, Saddle horses or any kind of horse you may need, call on W. E. Ellis, Hartford, and he will satisfy you both in quality and price. 4214

### MARKET REPORTS.

Following are the Louisville market reports, as given yesterday:

Cattle—Receipts, 94 head, prime export steers, \$10.75 to \$11.50. Light shipping steers, \$9.00, \$9.77. Butcher Steers, \$7.50 to \$10.00. Canners, \$5.20 to \$6.25.

Hogs—Active and 15c up. Best hogs, 145 lbs. and up, \$15.50, 120 to 165, \$14.15. Pigs \$10.00 to \$11.25. Roughs \$14.35 and down.

Calves—Best veals 10¢ to 10 1/2¢. Sheep—Best fat sheep 9¢ to 10 1/2¢. Bucks 9¢ down. Wool sheep higher. Best fat lambs 14 1/2¢ to 15¢.

Record prices are ruling for practically all staples, and in some cases are more than double those of a year ago. A comparison of the wholesale prices of some of the principal staples in the local market with a year ago follows:

	Pres-	Year
	ent.	Ago.
Wheat, No. 2 red, bu.	\$3.09	\$1.29
Hacon, breakfast, lb.	.33	.20
Corn, No. 2 white, bu.	1.73	.89
Oats, No. 2 white, bu.	.73	.47
Brain, ton	45.09	26.00
Wheat, feed	47.00	27.50
Cornmeal, 100 lbs.	3.90	1.70
Hominy and pearl meal, 100 lbs.	4.00	1.80
Youngling meal, ton	37.00	28.50
Cracked corn, ton	42.50	31.50
Flour, winter pat, bbl.	15.50	7.00
Creamery butter, lb.	.40	.25
Eggs, doz.	.41	.20
Hens, lb.	.20	.15
Geese, lb.	.10	.09
Ducks, lb.	.16	.12
Hacon, breakfast, lb.	.35	.26
Hams, lb.	.25	.18
Lard, lb.	23 1/2	12 1/2
Bread, lb.	.30	.22

### EXAMINATIONS FOR ARMY OFFICERS ON

The following card has been handed out with request for publication: Examinations are now being held at Bowling Green, Ky., for those who desire to take the examination to become members of the Officers Reserve Corps, the men who will officer the new army to be raised. All candidates must be between the ages of 20 years and nine months and 44 years, of good moral character and good schooling or general education. Each should be examined by his Physician before reporting to the Examining Board.

JOHN R. STARKLEY,  
Capt. 613, Arty.

### Found Dead in Field.

Elizabethtown, Ky., May 8. —Alonzo Kerck, 27 years old, was found dead in his field near Elizabethtown, today. Heart disease was the cause. His widow, one child in this parish, Mr. and Mrs. J. R. Kerck, survive.

### BEGIN SAVING EARLY.

Then You Can Pay Your Own Annuity

When You Are Old.

An agent of one of the big insurance companies sends me this about annuities:

"A man aged forty can deposit with us \$5,000 and receive \$350 annually for his lifetime. A woman aged sixty-five on a deposit of \$5,000 can receive \$600 a year.

"The man's expectation of life is twenty-eight years, the woman's at least eleven."

Now, \$500 is 10 per cent of \$5,000, and \$600 is 10 per cent of \$6,000. Any company which could make as much as 10 per cent could pay \$350 a year indefinitely, and when the annuity receiver died his original deposit would be intact. The company assumes that not more than 3 per cent can be made on money deposited with it. That explains why only 5.01 per cent is paid annually.

In theory part of the original deposit is taken annually to supplement interest earnings. If the annuitant lives his expected term of life the principal and interest at 3 per cent will have been paid to him.

Over a long period of years it is difficult to keep money safely employed and earning over 3 per cent.

In times like these it is hard to picture the years when capital is a drag on every market and millions are seeking investment in sound bonds at 4 per cent and under. Yet those years will come.

Every one his own annuity payer—that would be the ideal condition. Begin to save and invest early in your earning life, and when the time arrives to withdraw from the battle you will have both the resources and sufficient knowledge of how to invest them to make it unnecessary to accept the insurance company's offer.—John M. Oskinson in Chicago News.

### TRAPPING A SUBMARINE.

The Wire Rope Net That Catches and Dooms the Vessel.

A submarine net is made of wire rope about as thick as a lead pencil, and the meshes are of great size—about ten or fifteen feet square. The net has floats on top that keep bobbing up and down like the float on a fishing line, and on the bottom are weights that keep the whole thing in a perpendicular position.

The submarine cannot submerge to very great depths on account of the pressure, 200 feet being about the limiting depth. It sails innocently along, therefore, until it pushes its nose into these meshes. The net now trails along on both sides of the submarine, its progress revealing the fact that something below is supplying the motive power.

Perhaps the net suddenly stops. That means that the hidden submarine has stopped, its navigators having made the horrible discovery that they are trapped, or perhaps the net has become twisted in the propeller. Under these conditions the wise submarine rises to the surface. It surrenders, becomes the property of the enemy, and its crew are made prisoners.

If it does not take such action one of two things will happen. The enemy will wait upon the surface until the submersible comes up, or if it starts moving the enemy will follow until the inevitable uprising. But perhaps the surface commander gets impatient. In such a case he can let a bomb drop into the water, which will explode when it touches the roof of the submarine. Of course the submerged submarine knows that this bomb is likely to drop at any instant. The psychology of such a situation tends to persuade the imprisoned crew to surrender.—World's Work.

### High Cost of Artillery.

Always a costly arm, field artillery is more so now than ever, due to the complicated engines it uses. The equipment alone, exclusive of men and horses, for the artillery of a corps in our army reaches a cost of more than \$12,000,000, its visible supply of ammunition twice that amount. For an army of a million men the cost is more than \$120,000,000, that of ammunition more than \$240,000,000. Major E. D. Scott in National Service Magazine.

### When Drink Is at the Bottom.

"In a large proportion of cases," says a contemporary, "drink is found to lie at the bottom of the trouble when accidents to hay riders occur." Quite so, and at the bottom is the man outside of the drinks, while on top of the trouble is a couple of tons of twisted metal, some combustible substance, a tank of gasoline with a broken fuel line and a live spark.—Louisville Courier Journal.

### Not an Insult.

"Did you call that contemporary a know-nothing and a rascal?" "Yes, I did," answered Senator Borah.

### He Resents the Insult.

"That was no insult. That was a diagnosis."—Washington Star.

### The Dull Man.

The dull man has to be ignorant. He does not possess the faculty of putting himself in the other man's place. Therefore he is certain to blunder, to be unjust and to be cruel. He cannot be charitable.—Arnold Bennett in Woman's Home Companion.

### No Change.

"Patience—Isn't it remarkable how she keeps her age? Patience—Yes, she hasn't changed it in ten years.—Youkers Stammer.

It is easy to poke another man's fire.—Dial.

### TAFFY.

Measles are raging in this community.

Farmers are very busy putting out a crop.

Messrs. Ira D. and J. E. Funk had an "old time log rolling" last Tuesday. Forty three men were present and several women and children.

Dr. Stewart of Dundee was here today to see the baby of Mr. and Mrs. Sherman Gray, who is very ill with measles.

Miss Susie Raymond spent last week with her sister Mrs. Ira D. Funk.

Roscoe Hurd spent Friday with his parents near Shinkle Chapel.

Mr. Dode Taylor has purchased a five passenger auto.

Mr. Ira D. Funk made a business trip to Sunnydale today.

Mr. Everett Shafer of Centertown spent Saturday night and Sunday with friends and relatives at this place.

### ONLY 24 ENGLISH SHIPS SUNK DURING PAST WEEK

London, May 9.—Twenty-four British merchant vessels of more than 1,000 tons each were sunk during the last week, it was announced officially. Twenty-two vessels of less than 1,000 tons and sixteen fishing vessels also were sunk.

The official statement says: "Vessels of all nationalities, arrivals 2,375, sailings 2,499."

British merchantmen over 1,600 tons sunk, including five not reported previously, twenty-four; under 1,600 tons, twenty-two.

British merchantmen unsuccessfully attacked, including six previously not reported, thirty-four.

British fishers sunk, including one not previously reported and thirteen sailors, sixteen.

### The Pocket Stage.

It may fairly be claimed that humanity has within the past hundred years found a way of carrying a theater in its pocket, and so long as humanity remains what it is it will delight in taking out its pocket stage and watching the antics of the actors, who are so like itself and yet so much more interesting. Perhaps that is, after all, the best answer to the question, "What is a movie?" It is, or ought to be, a pocket stage. Scenery, light, shade, the actors themselves, are made of words and nothing but words, more or less cleverly put together.—E. Marlow Crawford.

### Crows and Crops.

The biological survey of the department of agriculture has investigated the relation of crows to corn. The essential conclusions are that crows are about equally benefited and injurious and that they are not so wary and sagacious as to need legal protection. Lack of this, while not endangering the species, will permit farmers to protect their crops or other property where ever necessary.

### Worse Still to Come.

Henderson—What makes you so blue? Sanderson—My wife's bread's a failure. Henderson—Is that all? Sanderson—All? No; something worse is coming. Henderson—What? Sanderson—A week's ordeal of bread pudding.—Pack.

### Then Ma Sent Willie to Bed.

"Hi, what is a dilldander?" "A dilldander is an attempt to talk a plan of action to death, my boy." "I see. You married into one, didn't you, pa?"—Detroit Free Press.

### A Bit of Sentiment.

"Why all these toots as you pass that village?" Inquired the fireman. "Toots is my wife's pet name," explained the engineer.—Pittsburgh Post.

Worry poisons the mind just as much as a deadly drug poisons the body and last as surely.

### Beda Bems.

Word has just been received here, by relatives, of the death of Mr. Wallace Ward, which recently occurred in Baltimore, Md. Deceased was the youngest son of Mr. Len Ward, who resided in this county and was well known here. Mr. Ward left this state soon after his father's death several years ago, going to Chicago, where he resided. His remains were taken there for burial.

Mr. and Mrs. V. C. Ward, announce the marriage of their daughter Ma, to T. W. Retherford of Louisville, Ky.

### CASTORIA

For Infants and Children  
In Use For Over 30 Years

"Always bears the Signature of"

### WORLD WAR COAL MINERS FROM ENLISTING IN ARMY

Lexington, Ky., May 8.—Voluntary enlistment of coal miners must be prohibited or the coal production will be seriously curtailed, the Hazard Coal Operators' Exchange, composed of mine operators of the Hazard coal field, telegraphed Congressman C. B. Shoup, of Washington, last night, through its secretary, R. A.

# A BIG Saving!

Can be made by buying your shoes early. Our stock of

Men's Oxfords and Ladies', Misses' and Children's Oxfords and Pumps

In all the wanted styles and materials is very complete and exceedingly large. Already we have notices of advances of 25 to 50c per pair. That means duplicates will cost you from 25 to 50c per pair more.

ANTICIPATE your wants and buy from our first purchases and save the difference.

NO TRASH in Our SHOE STOCK

Every shoe is the biggest value to be had for the price we charge.

King Quality Shoes  
For Men

Queen Quality Shoes  
For Women

Billiken Shoes  
For the Children

Style, Wearing Qualities and the Price. Are all on an equal basis—the value you pay for is the value you get.

Good shoes are high in price—cheap shoes are much higher than good ones.

IN OUR shoes we keep the quality up and you will be satisfied with the service you get for your money. In cheap shoes the quality is all taken out and you practically get nothing for your money.

Be wise in selecting  
YOUR SHOES

for spring and summer. Buy high-grade shoes—pay the price, and the saving in the end will more than recompense you for the larger immediate outlay.

Will you favor us with an opportunity to show you our shoe values?

E. P. Barnes & Bro.  
Beaver Dam, Ky.

Hurd, it was made of Congressmen Shoup, himself owner of extensive coal properties and a member of the Kentucky River Coal Corporation, to place the matter before the Council of National Defense and endeavor to have the volunteer recruiting of miners stopped by special order. Miners under the new selective draft law are exempt from draft because they are in an occupation regarded as necessary to the country. There is, however, no barrier to the enlistment voluntarily of a miner, and such enlistments are daily going on. Mr. Hurd said. At one mining camp all single men have enlisted, leaving the force much curtailed. The shortage of labor is one of the big factors entering into the increased cost of coal.
